Break Through Lines Threatening Retreat Starts, Women Aiding Intensive W. S. S. Drive

Counter-Attacking in Face of German Reserves, Italians Cross Piave, Capturing 45,000 Prisoners and Vast War Booty, Including Great Number of Guns. Several Austrian Divisions Wiped Out. Losses Put at 200,000.

(By United Press)

Washington, June 24.—Counter attacking in the face of German reserves, the Italians broke through the Austrian lines at Cellabella and are threatening the retreat of the enemy after crossing the Piave, official Rome cables announced today.

Forty-five thousand prisoners and vast war booty, including an enormous number of guns, have been captured by the Italians.

American airmen are operating in the drive and the cables today commend the Americans for their bravery in "their initial action."

Italian artillery has destroyed all but one bridge thrown across the Piave during the Austrian advance, it was stated, and the withdrawal of the enemy is being effected only with tremendous losses. Several Austrian divisions have been wiped out.

Entire battalions attempting to ford the swollen stream have been swept away, the cable stated, and the muddy waters were choked with Austrian dead.

Picked Austrian troops ordered to hold the line from Maserata to Sarnonza to protect the Austrian retreat, have been defeated after a desperate stand and are being pursued by Italians on the left bank of the river.

Attack Fleeing Austrians

Rome, June 24.—Italian cavalry has crossed the Piave at the middle in addition to bridging the lower river and is attacking the fleeing Austrians along the east bank, it was announced. Two thousand Austrians were captured at Montello last night.

Numerous squads of our bombers have crossed the river, where our artillery and aircraft are hammering the enemy," it was announced.

"Considerable bodies of our troops have reached the old Piave lines in large sectors and are harassing the retreating enemy."

Patriotic demonstrations were staged through Italy today. Flags were flown and cheering crowds paraded the streets, singing the national anthem.

Pursuing the Austrians

Rome, June 24.—The Italians have crossed the Piave in pursuit of the fleeing Austrians. Infantry and cavalry have crossed the flooded river near Caposoli.

The western bank of the river has been practically cleared of the Austrians. Montello has been entirely retaken. Only a few points on the right bank from Zenson south to the sea are now occupied by the enemy.

The Italians have taken thousands of additional prisoners and great quantities of materials have been abandoned.

All of the Italian guns lost last week have been recaptured. Nine Austrian divisions have been annihilated. Fifteen others have been worn out of which entire regiments have been destroyed.

The total Austrian losses in the drive are now estimated at more than 200,000. The Italian losses in killed, wounded and captured are only 40,000.

The Italians started counter attacking along the entire river line when the Austrians had only two bridges. The others had been swept

Continue Demonstrations in Vienna Shouting Down With Germany

Zurich, June 24.—One hundred and fifty thousand strikers in Vienna had another conflict with the authorities Saturday, according to today's dispatches. Shouting "Down with the Germans," the crowd again attempted to reach the German embassy but were dispersed.

Not to Accept Resignation

Copenhagen, June 24.—Emperor Karl will not accept the resignation of the Austrian cabinet according to a dispatch from Vienna today. The political trouble will be solved by the ministry. The Hungarian cabinet is about to resign.

WHEREABOUT OF THE ENGINEER IS MYSTERY

(By United Press.)

Hammond, Ind., June 24.—The whereabouts of Engineer Alonzo Sergeant of the equipment train that tore through a Hagenbeck-Wallace train, killing 58 circus people and injuring others, was a mystery here today when the coroner's inquest opened.

He was reported under arrest at Kalamazoo, Mich., but officials had not been notified.

Fireman Gustave Klause of the equipment train gave himself up to the authorities and testified at the inquest. Rumors said that Klause was alone in the engine cab at the time of the accident.

The flagman swore that when the train stopped, he ran 200 feet to the rear and placed a stop signal. After placing the torpedoes, he declared he ran at top speed toward the oncoming train, placed a lighted fuse beside the track and lighted a second which he hurled at the engine cab as the train went past. It was running 25 miles an hour, he said, and could have been stopped in 150 feet.

GIVE CANVASSERS A FLYING START

Pledges Amounting to \$25,105 Made at Union Meeting Addressed by Judge Orbison

TEN \$1,000 SUBSCRIPTIONS

Speaker Tells What Soldiers Expect of Us—Poor Rule That Doesn't Work Both Ways

Pledges amounting to \$25,105 made at the union meeting at the First United Presbyterian church Sunday night, gave the War Savings Stamps canvassers a flying start this morning on their five-day campaign to reach the county's year quota of \$386,000.

Although the crowd was not very large last night, a stirring address by Ex-Judge Charles J. Orbison of Indianapolis warmed the audience to the task at hand and Judge Will M. Sparks, experienced little difficulty in bringing in the pledges rapidly.

There were ten thousand-dollar subscriptions and as many for \$500. A few ranged between \$500 and \$1,000, but the majority of the pledges were below \$500. This left the county this morning with the job of subscribing more than \$200,000 to do what is expected of it in the present drive.

Samuel L. Trabue presided at the meeting and introduced Judge Orbison. The speaker said that this was a war not only for ourselves, but for religious and republican principles as well as for humanity.

"When a boy goes to the front, we expect him to do his best," said Judge Orbison. "We expect him to make any sacrifice, to lay down his life if need be, that we may be saved from the iron heel of Germany and that our free institutions may not be destroyed. But what has the young man the right to expect of us? What is our part in this world's struggle? It is that we shall sup-

186 MEN ALREADY ON TRAIN

With the cheers of hundreds of people ringing in their ears, eighteen Rush county selectives left at 12:25 o'clock today for Camp Sherman, Chillicothe, Ohio. They boarded the regular Big Four train, on which there were already 186 selectives from counties along this division of the Big Four north of here.

At ten minutes of twelve o'clock, the court house clock began to ring and rang for five minutes, arousing Rushville people to their duty. The platform at the Big Four station was crowded with people saying farewell to the departing men.

The men on the train were all happy and cheerful, cheering lustily as the train pulled out. There were four extra coaches and a dining car on the train. The men will be combined with the detachment of the Chicago division of the Big Four at Greensburg and will proceed to Chillicothe this evening, arriving there at 9:40 tonight.

WOMEN TO PLAY PART IN CAMPAIGN

Rushville Committees Perfected With Aim of Putting The Township Over Tomorrow

WILL MEET TONIGHT AT 7:30

Canvassers of Various Districts Are All Requested to be Present For Instructions

The women of Rushville have perfected an organization which is expected to play a big part in the sale of War Savings stamps in every part of the city and township in the present drive.

At the request of the county chairman, the available members of the woman's section of the county defense council have taken up the work and will assist the men in the canvass of the various districts. Mrs. A. L. Stewart, the woman member of the council, has taken the reins in this work of the women.

The members of the woman's committee who begun the work of solicitation, are in most cases veterans at it. Many of the same workers who have agreed to lend their assistance in the present drive, assisted in the efficient campaign which the women carried on in connection with the Third Liberty Loan campaign a few weeks ago.

A meeting of all women in the township who are interested in the campaign which this section of the War Savings Stamp workers are about to launch, will be held this evening at 7:30 in the sheriff's office. The meeting has been called in order that final instructions may be given to all of the canvassers and that enough momentum may be gathered at the opening meeting to complete the work of the women in one day.

Miss Belle Gregg, Mrs. Louis Lambert, Miss Mary Sleeth, Miss Alma Green and Mrs. A. L. Stewart are the members of the defense council committees who have taken over the direction of the woman's work in the township and at tonight's meeting which is open to the entire public, the women canvassers of the various districts are especially urged to be present. The canvassers include:

District number one, Mrs. Alice Bainbridge; number two, Mrs. William Wolcott; number three, Mrs. Willard Amos; number four, Mrs. Guy Abercrombie; number five, Mrs. John Titsworth; number six, Mrs. Ferd Retherford; number seven, Mrs. Hugh Mauzy; number eight, Mrs. Belle Gosand; number nine, Miss Pearl Kitchen; number ten, Mrs. Emma Gosand; number eleven, Mrs. Donald Smith; number twelve, Miss Wanda Wyatt; number thirteen, Mrs. Charles Oman; number fourteen, Mrs. William Trappnell; number fifteen, Mrs. Lila Retherford; number sixteen, Miss Belle Gregg; number seventeen, Mrs. E. SMOOTH WORKING MACHINE IN ORDER

Canvass Begins With Perfect Cooperation All Over County and 29 Members In Limit Club

OUT TOWNSHIP MEETINGS

Rev. L. E. Brown Will Speak at Arlington Tonight and Glenwood Wednesday—Mays and Homer

Rush county was fairly carried away today with War Savings stamp activities as the efficient machinery of the recently perfected organization was set in motion, and with perfect co-operation the canvassers began a determined effort to put the county over in a short decisive drive.

The special committees working entirely on solicitation of maximum subscriptions, factory committee and business men's committees were in full swing and on every hand the co-operation which has previously been lacking has come to the front from every part of the county which is insuring a successful campaign.

Twenty-nine names were placed at the top of the Limit Club membership roll by noon today, the first day of the membership drive and the maximum subscription to the War Savings Stamp drive in Rush county. The response to the call for members came with the willingness which insured a large subscription of thousand dollar subscriptions at the close of the day's drive. The twenty-nine names reported in today's membership roll were included in the first lap of the canvassers drive of the day. Numerous other thousand-dollar subscribers, whose names were not available will be published tomorrow.

The initial names on the Limit Club honor roll include the following:

Ripley, township—Dr. O. W. Wrighter and The Carthage Bank. Posey Township—Mrs. John Nelson and John Nelson. Anderson Township—Milroy Bank. Rushville Township—Harry G.

REO

Don't You Think This Reo Six Is a Beautiful Motor Car?

WE CONFESS WE ARE PROUD of the looks
as well as of the mechanical excellence of this
new Reo model.

RIVALS USED TO SAY "Oh, Reos are good
cars—no gainsaying that—but our bodies excel
in design," etc.

PERHAPS WE DID concentrate our attention
on the mechanical features, and sometimes to
the neglect of mere outward appearance.

PERHAPS WE DID, but as between the two,
which do you prefer, a good car—or a good
looking one?

FOR IT IS A FACT that those who "build them
to sell" are just as prone to overlook vital
mechanical details as we were to ignore the fads
of the moment in our body design.

COURSE the ideal, at which we aim is a good
looking car that is also internally good—and
that describes this New Reo Six.

IN EVERY LINE and curve—in all details of
upholstery and finish and equipment—this
Reo Six is a la mode.

UP TO THE MINUTE in design—while the
quality in seen, as well as in unseen places—is—
Reo.

AND THAT'S THE BEST the world affords.

WE REO FOLK DON'T SKIMP to meet a price
competition. Reos are not built to sell at a
predetermined price.

REOS ARE BUILT just as well as Reo experi-
ence and Reo engineering skill, actuated by
Reo Good Intent, can make them. Then the
price is set—based on cost plus a reasonable
profit.

IN A WORD, the Reo you buy is made just as
you would have it were you to write the speci-
fications yourself, test every part and then
watch every operation.

SPACE FORBIDS a detailed description here.
Besides the car itself tells its own story better.

SEE THIS SIX—RIDE IN IT. Drive it your-
self—you can, without a word of instruction
if you have ever driven any automobile.

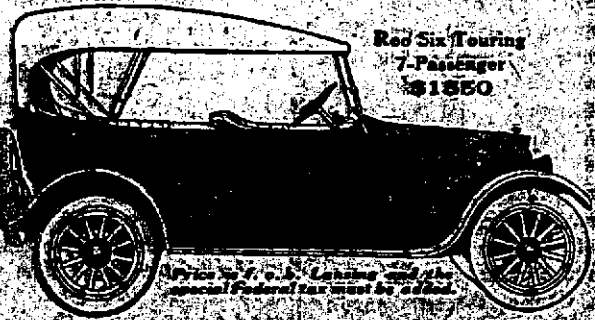

THEN LET US HAVE your order at once—for
demand is already ahead of factory output and
only those who order early can hope to obtain
Reos.

TODAY won't be a minute too soon.

SOME CORNFIELDS NIPPED BY FROST HOG PRICES ARE TO TO 15 CENTS LOWER

Corn fields in the low lands and
other vegetation were nipped by the
frost Saturday night and from many
places come reports of the tempera-
ture being low enough to freeze
water. Several farmers say a thin
scum of ice was frozen in hog
troughs and other vessels containing
water, Sunday morning.

Whether the frost damaged the
corn to any great extent is still
problematical. One farmer said to-
day that most of the corn would pull
through all right if it had a good,
warm rain in a few days, but that if
the weather continued dry for a
week or ten days longer, immeasur-
able damage would be done.

Some of the corn, however, was
killed, but not enough of it to cause
any great loss, in the opinion of
many farmers who have inspected
some of the frostbitten fields. One
farmer this morning was displaying
several stalks of corn showing the
various degrees of the effect of the
frost. Some of it was black from the
frost and other stalks were only
slightly affected. It is explained that
where the heart of the stalk was not
damaged, the corn will live.

None of the corn in high places
was touched by the frost and none
of the gardens in Rushville were
touched because they are for the
most part in sheltered places. Some
gardeners feared for the tomatoes
when they heard of the frost, but an
examination disclosed that the crop
was not damaged.

Although most of the county
wheat crop is in the shock, farmers
would welcome some warm rain and
warm nights so the corn will grow.
They say a little rain would not hurt
the shocked wheat, but would only
serve to put it in better shape for
threshing.

Unless it rains for several days
straight, there will be wheat thresh-
ing in Rush county on or before the
Fourth of July. This is very un-
usual because the season is rare
when any wheat is threshed before
the Fourth.

Many binders were operated Sun-
day and many tons of hay were put
in the mow because farmers are ex-
pecting rain at any time and do not
want to be caught with any hay
down in the fields.

From all parts of the county come
reports that this year's wheat crop
is the cleanest and best in several
years here. They declare that it is
freer from foreign growths than the
average wheat crop in Rush county
and that most of it will be excellent
seed wheat. Many farmers make
certain there will be no rye in their
wheat by going through the fields

Hog prices were ten to fifteen
cents lower today with receipts at
5,000, which was twice as great as
Saturday's. The grain market held
steady and the cattle market was
strong with prices the same.

We lower prices on all of our Coats and Suits right now while their season is at its height. It is near the end of our selling season, but that will not interest you as much as the fact that you may save considerable money on garments that you will wear for months to come.

Even though these prices are extremely low, you may be sure that the garments are in every way up to the standard of newest fashion, of invariably high-grade materials and of most thorough workmanship.

We list below some of the prices so that you can see the proportions of saving:

Economy in Public Affairs

The national house of representatives has wisely served notice on the federal committee on public information that it must practice rigid economy, just as the individual is expected to do for the period of the war. The house has informed the committee that it may expect its appropriation to be cut from \$2,098,000 asked for in the sundry civil bill to \$1,250,000. This reduction does not apply to any particular activity of the committee, but relates to all of its work. The reduction was approved by the appropriations committee, and was adopted by the house in exactly the form it was reported, with an almost unanimous vote.

George Creel, who is chairman, did not escape without criticism during debate on the item. He was sharply assailed by Representative Green, of Iowa, for having employed Charles Edward Russell, Socialist, to make speeches in which Mr. Russell criticized members of Congress by name and that were extremely partisan in character.

Representative Wood, of Indiana, again called the attention of the house to editorials written by Mr. Creel during the progress of labor troubles in Colorado, in which Mr. Creel advocated the initiative, referendum and recall. Mr. Wood said that Mr. Creel was "too socialistic to occupy the responsible position he now holds."

A report on the activities of the committee shows that since its inception shortly after the entrance of the United States in the war \$1,054,424 has been spent out of the president's emergency fund.

Heardings before the committee at which Mr. Creel defended himself against attacks for alleged socialistic tendencies were made public.

Discussing excerpts from alleged socialistic editorials written by him in a Denver newspaper in 1911 and 1912, Mr. Creel had this to say:

"They were written in the heat of campaigns, as I have explained. I believe absolutely in the initiative, referendum and the recall, but the language represented a state of mind at that time, the excitement of the moment, political strife, crowd psychology and that sort of thing. For instance, when Mr. Roosevelt, in 1912, said that the Republican convention was a bunch of burglars I do not think he meant that in a literal sense, but merely expressed a state of mind."

Explaining a statement in one editorial that "America is now regarded as a nation of commercial sharks," when asked whether his views have since been modified, Mr. Creel said:

"I trust, sincerely, that I have modified my form of expression, and passionately and judicially today. I think I am writing far more dispassionately and I have modified my views to a great extent. Early enthusiasms gave away inevitably before the cautions and disappointments of life."

A salary list presented by Mr. Creel shows that Clayton D. Lipe, business manager of the committee, and E. S. Rochester, director of the

central bulletin division, each receives \$3,200 a year. Henry Alva, Jr., manager of distribution division \$4,200, and Clara Sears Taylor, director of woman's war work, \$3,350. Referring to the committee on public information, President Wilson, in a letter to Chairman Shelley, of the House appropriations committee, highly praised its work, and said he would be "personally crippled" by any obstacles put in its way.

Before passing the measure, however, the house amended it so that none of the information committee appropriation can be used to pay salaries to men of draft age unless they are physically disqualified for military service.

MOTIVE FOR ROBBERY CAN'T BE EXPLAINED

Oil Cups Which Can Not be Replaced Except at Great Expense Taken from Threshing Engines

A theft, the motive for which puzzled the authorities today, occurred last night in the rear of the Oeal Brothers store in South Main street, when the brass oil cups were removed from two threshing engines.

The fact that the theft was prompted from another motive than that of money obtained from the brass, is evident from the fact that the sale of the pieces to a junk dealer would not bring more than a dollar while Mr. Oeal declared today that in order to replace the missing cups a purchase of almost a hundred dollars worth of machinery is necessitated.

The engines had been completely overhauled and were ready to begin the work in the wheat field this week. The work in the wheat fields of the Oeal brothers will be delayed to a great extent by the theft because of the fact that the shipments are slow and it will be impossible to purchase the right sized oil cups without buying other pieces of machinery which connect with the cups.

FOLEY'S HONEY AND TAR

Don't wait for a cold to attack you. Fight back. Attack it. Hit it first, if you can.
At the first indication of the presence of the enemy, get busy. Go right after him and keep right after him until you know positively he has retreated and gone for good.
Watch — But Don't Wait
Don't be afraid of answering a false alarm. You never can tell what a cold will do when it gets a good start. So there's only good sense in having some when you stop a cold before it gets any start at all.
It is far better to take a dose of safe and harmless cough medicine than to let a cold get so bad that it takes its toll of time when you need it. Play safe and sure. It pays in the long run.
How to Attack Successfully
The best way to attack a cold is to take a few doses of Foley's Honey and Tar Compound. It quickly checks the cold, and by its action builds up a stronger defense. It coats the raw inflamed membrane with a soothing, healing agent, stops the spread of inflammation, clears the air passages, loosens the phlegm, soothes the throat and banishes the annoying condition. Foley's Honey and Tar Compound contains no opiates, is absolutely safe and harmless, and has been used by thousands of homes for many years to prevent and overcome coughs, colds, croup, whooping cough, in children and bronchial coughs. In 25c, 50c and \$1.00 bottles. You get the original and genuine Honey and Tar Compound when you insist on Foley's.

BROWN BROS. GROCERIES

Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles, and his brain and nerves are craving for food.
Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic, and even ambitious man.
So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up in the morning enough to take a regular job to get a package of Bio-ferm at any drugist.
This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life.
People whose nerves have been wrecked by too copious use of stimulants, opium or alcohol, have regained their old-time confidence and energy in less than two weeks.
No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-ferm at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone.
Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.
Note to Physicians: There is no secret about the formula of Bio-ferm; it is printed on every package. Here it is: Lecithin, Calcium Glycophosphate, Iron Peptonate, Manganese Peptonate, Ext. Nux. Vomica, Ferrous Gentian, Phenolphthalein, Ojarsin, Capsicum, Kola.

port him to the utmost in everything. It is a poor rule that does not work both ways. There are a number of things we have got to do.

"In the first place, we must cease to prattle about peace. There can be no enduring and satisfactory peace until the kaiser is eliminated. We can not think of peace that does not send the emperor of Germany into oblivion. There can be no just peace until American soldiers march down the streets of Berlin to the tune of the Star Spangled Banner.

"In the second place, we have got to commence now to preach the American doctrine. The time for the hyphenated American has passed. There should be no German-Americans or Irish-Americans. We are all Americans. The time has come when everyone must be for or against the government, with the understanding that those who are against the government are disloyal.

"In the third place, we have got to teach our children the English language and none other. I have a feeling that if they know that, they will get along very well. There should be no German language taught in the schools. Furthermore, the politicians who favor a law to permit teaching the German language in the schools in order to catch the German vote, are anything but patriotic.

"In the next place, we need to forget our partisanship and all be Americans. It is time to wipe out political lines. For this reason, I want to congratulate your distinguished fellow townsman. He has shown clearly that he stands behind the president for the successful termination of the war and his forceful enunciation of Americanism puts him squarely for the government.

"In the next place, we have got to do away with the soap box orators and the barber shop strategists. They are the fellows who criticize this and that, but know nothing of what they are talking about. I have heard a great deal about constructive criticism. It is a broad term. I believe it is about time to forget all criticism and begin to win the war.

"In the next place, it is time to get rid of the slackers and disloyal ones. We've got to save and conserve. We have been enjoying the bounty of this country so long that we do not know the meaning of sacrifice. Shame on the man or woman who will be loud in their protestations of loyalty and allow their stomach to be a slacker.

"Some may be thinking now, I have been giving and loaning until I can give no more. We may be loud in our protestations, but when we are asked to do our part, we squeeze our eyes and our mouths and we are the dollar until the eagle fairly screams with pain. Lots of us do a safely in France. Schatz is the first lot of talking, but when it comes to Rushville boys to save in this branch signing our names and pledging \$1.00 of the service.

000, we hedge and say that \$30.00 is about all we can do. That is not patriotism; it is a mean contemptible way of saving our faces. It is not for me to say what you shall pledge, it is for you and your conscience to say.
